

COMMUNITY INPUT SUMMARY

Activities Completed in October 2020

Engagement Objective

Better understand our community's transportation priorities and experiences.

How We Shared & Gathered Information

- Two virtual presentations with Q&A (63 attendees/ viewers)
- 495 form responses
- 2,137 map comments from 466 people about 1,657 map points
- 4 phone line participants

Who Provided Input? (By Relationship to County)

VISION ZERO

ARLINGTON COUNTY

Vision Zero Overview

In 2019, the Arlington County Board committed to enhancing safety on the County's transportation system by adopting Vision Zero.

Vision Zero is a comprehensive and holistic strategy to eliminate transportation-related fatalities and serious injuries. We are currently working with you—members of the community—to create an Action Plan to achieve our Vision Zero safety goals.

Vision Zero Priorities

Arlington County asked for public feedback on transportation safety concerns and priorities in the County.

Respondents ranked speeding, distracted driving, unsafe roadway intersections, and unsafe bicycle or pedestrian crossings as the top challenges to safe travel in Arlington County.

County staff are using your input to define actions that can make it safer to get around Arlington.

Prioritizing Safety Investments – Which Factors are Most Important?

Top Challenges to Traveling Safely in Arlington

Arlington's Safety Input Mapped

Arlington County asked you to map specific locations of concern for various transportation safety issues. Results for the 1,657 points placed on the map are shown below.

Map Point Categories

(% of 1,657 points placed on the map)

Map dots each represent one dot placed on the interactive map. Colors of dots correspond to categories as shown on the chart to the left.

Key Findings

We are using your input to finalize our Vision Zero safety action items within the framework of the Vision Zero goals and priorities we have developed together.

For example:

- We will review speeds on the High-Injury Network and roads with speed limits over 30mph to identify and deploy speed reduction measures.
- We will revisit and revise our guidelines for crosswalks and trail crossings to ensure they follow the latest industry standards and leave room for creative engineering solutions.
- To reduce distraction and other negative behaviors, we will use data to target education campaigns to

areas where these behaviors are common.

- We will make it easier for community members to report problems and safety concerns by creating a one-stop-shop for reporting on the County website.
- We are working to secure funding for both small and large scale safety projects to improve the areas that you helped us identify for improvement!

Stay Involved!

The Vision Zero Action Plan will outline specific actions for Arlington County to take to eliminate transportation-related deaths and serious injuries on our streets, sidewalks, and trails. Sign up for the email list to stay up-to-date on opportunities to review the draft plan in early 2021.
